Like puzzles?
Then you’ll love sudoku
This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Here’s How It Works:
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

ARIES (Mar 21/Apr 19) Transitional issues pop up this week, Aries. You are not quite sure which direction you should go. A close friend or advisor can help you navigate the way.

TAURUS (Apr 20/May 20) Taurus, you are a team player, but this week you may need to fly solo for a bit to get a handle on all of your tasks. Once things get settled, the team mentality can be restored.

GEMINI (May 21/June 20) Gemini, if you feel like your hard work is not paying off, then you may need to use this opportunity to speak with a supervisor. This can spark changes you feel are necessary.

CANCER (June 21/July 22) Cancer, there are some major changes in the way you feel this week, and it could take a few days to work through all of the emotions. But you'll get a handle on things.

LEO (July 23/Aug 22) Big news arrives this week with much fanfare, Leo. The excitement will start early in the week and culminate by Thursday or Friday. Expect to be surprised.

VIRGO (Aug 23/Sept 22) Relationships can't be the stuff of movies all the time, Virgo. Sometimes you have to go with the flow and make the most of the small daily moments.

LIBRA (Sept 23/Oct 22) Your time has been stretched too fast and too much, Libra. The stress may be on and you're feeling it. However, the remedy is to delegate some of your tasks and lighten your load.

SCORPIO (Oct 23/Nov 21) Scorpio, you're not one for being overly emotional and sappy, but this week you can't hold back the feelings any longer. Don't hesitate to share your feelings.

SAGITTARIUS (Nov 22/Dec 21) If you are looking for inspiration, look no further than the close friends or relatives who are around you. They will have plenty of ideas that can get you fired up.

CAPRICORN (Dec 22/Jan 19) You have plenty of events coming up to keep you busy, Capricorn. You may have to pick and choose which ones to attend because you simply can't do them all.

AQUARIUS (Jan 20/Feb 18) Aquarius, even though you think certain situations require your undivided attention, you're really not involved at all. Avoid reading into things and wait for news to come to you.

PIECES (Feb 19/Mar 20) It is time to assess your priorities, Pisces. What do you want to get accomplished over this week? You can knock out one or two items.
VALENTINE'S DAY 2020 | FLORAL SYMBOLISM

What Various Flowers Can Represent

Understanding the meanings behind various flowers can help Valentine’s Day celebrants more accurately express their feelings toward the special people in their lives.

Flowers are popular come Valentine’s Day, as various blooms can signify love and affection. Roses are one of the most popular flowers to gift on Valentine’s Day, and according to Bankrate, men and women can expect to spend $41.66 on a dozen roses.

Some gift-givers may want to deviate from the standard bouquet of roses and offer flowers that are more in tune with their recipients’ preferences.

Flowers have long been used to convey certain feelings in many cultures. Folklore, poetry and mythologies have played a role in defining the various meanings associated with certain blooms. Read on to learn more about what certain blooms may symbolize.

Amaryllis: This flower symbolizes splendid beauty and can be given to indicate worth beyond beauty.

Aster: The popular aster symbolizes wisdom and devotion.

Black-eyed Susan: These vibrant blooms represent justice and can be ideal for the person who works in the legal profession.

Carnation: A less expensive alternative to roses, carnations represent pride and beauty. Furthermore, the colors of carnations represent different meanings. Red symbolizes love, while pink is for a mother’s love and white represents innocence and pure love.

Daisy: Innocence and purity are the meanings behind the yellow and white daisy. This can be the perfect pick for new, young love.

Freesia: Those wanting to evoke passionate feelings can choose freesia, which is also said to mean “joy.”

Hydrangea: Hydrangeas symbolize heartfelt emotions and can be used to express gratitude for being understood. This may be the perfect “making amends” flower.

Lilac: Couples seeking tranquility and passion can turn to lilacs. The calming lavender hues also can be a welcome change in floral arrangements.

Rose: Of course, no Valentine's flower roundup would be complete without roses. Roses represent love and passion, and, like carnations, their colors symbolize different things. Red roses represent desire, pink roses suggest happiness and white roses symbolize worthiness. Avoid yellow roses, which suggest fading love.

Zinnia: Zinnias symbolize thoughts of distant friends and can make a thoughtful friendship arrangement to send to a faraway comrade.

Flowers are part of many Valentine’s Day celebrations. By learning the meanings behind different flowers, men and women can make their feelings better known.
